To: Ross Emery

I wanted to write and thank you for the excellent job your crew did when installing our new gutters and downspouts.

The job was completed quickly and professionally. From the start with the measuring of materials needed to the final instillation there were no mistakes or problems.

We will and have told our neighbours, friends, and family that if they are in need of new gutters we strongly recommend your company.

Thank you again for a job very well done.

Jan Thompson
