Subject: Re: 6551 Throup Rd., Sooke

Good Morning Bill, from Sunny Sooke...

Just wanted to let you know that the fascia gutters were installed on Saturday morning. Roger of Aerial Roofing had just completed the roofing job on Friday so we could not have asked for better service. In fact Roger had not installed the drip edge flashing on the back side of the roof but was able to complete that this morning. The new roof and gutters look fantastic and will certainly serve us well this fall and winter when the rains begin to fall.

Thanks again for doing such a great job in such short order. If you need a reference please do not hesitate to ask or to send any possible Sooke clients around to see the terrific gutters and down pipes that you installed.
